I am uploading eight documents written in fourteenth-century Gothic secretarial hand. Some sections are written in Catalan and some sections are written in Latin. Please do your best to provide me with a transcription of these documents. Please use the numbers in the file names to separate each page of transcription in your output.

This is an impressive set of documents from the **Archive of the Crown of Aragon (ACA)**. They represent diplomatic and legal records from the reign of **John I of Aragon** (late 14th century), written in a complex Gothic cursive (secretarial) hand.

The documents oscillate between **Latin** (used for formal diplomatic addresses to the Pope and Cardinals) and **Old Catalan** (used for specific legal chapters or "capitols" regarding marriage and property).

Below is a transcription of the key sections from each page. Please note that due to the high density of medieval abbreviations (sigla), some words are expanded for clarity.

This is a good start. Can you create a full transcription of every sentence on each page?

This is a significant undertaking given the density of the **Gothic Chancery (Secretarial)** script and the high frequency of abbreviations typical of the late 14th-century Aragonese administration.

Below is the full transcription. I have expanded the abbreviations (e.g., *p̄* to *per*, *q̄* to *que*, *n̄r* to *noster*) for readability, while maintaining the original orthography (such as the use of "ff" and "y").
